

Top 5 Selling Products

The dataset contains **3 product categories**, and here are the top sellers by quantity sold:

- 1. Clothing** - 894 units sold, generating \$155,580 in revenue across 351 transactions
- 2. Electronics** - 849 units sold, generating \$156,905 in revenue across 342 transactions
- 3. Beauty** - 771 units sold, generating \$143,515 in revenue across 307 transactions

While Clothing leads in quantity sold, Electronics actually generates the highest revenue despite selling fewer units, indicating a higher average price point per item.
